WORK EXPERIENCE

Logistics Department   2023-current
PPI Monash l Kuala Lumpur

I had the responsibility of overseeing and managing the inventories for PPI. This involved planning and executing logistics to ensure the smooth flow of products. Additionally, I was entrusted with handling day-to-day affairs, which included ensuring customer satisfaction through prompt and efficient service. This multifaceted experience provided me with valuable insights into inventory management and customer relations, enhancing my skills and preparing me for future challenges in the field.

Backend developer   2022-2023
V2 Indonesia | Jakarta

During my internship, I had the invaluable opportunity to gain hands-on experience in the tech field by contributing to the development of a cutting-edge metaverse website. Utilizing technologies like React and Oracle, I played a key role in building user interfaces, managing application state, and ensuring efficient database operations. Working alongside a talented team, I honed my problem-solving skills and adapted to Agile development methodologies. This enriching experience has equipped me with practical knowledge and a deeper understanding of the ever-evolving tech landscape, making me better prepared for a successful career in the industry.
